SOURAV GHOSH

Certified AWS Cloud Practitioner | Senior Associate L1 at Publicis
Sapient
Jalpaiguri, West Bengal, India

Summary

Java developer with 5 years of experience in application development using Restful Web-Services, with 4 years of experience with Spring framework. Involved in development, unit testing, maintenance, performance enhancement and implementation of best design principles.

Experience

Publicis Sapient
Senior Associate
November 2021 - Present (4 years 3 months)
Bengaluru, Karnataka, India

Dassault Systèmes
Development Engineer
November 2018 - November 2021 (3 years 1 month)
Pune, Maharashtra, India

Project My Offer : My Offer is a client side application, which works as a catalog for all existing software products in Dassault Ecosystem.

- Developed multiple enhancement features for the application.
- Worked as L3 support for the application and solved numerous bugs.
- Proposed multiple enhancements in design to improve code maintainability and performance.

Project - IS Requirements : IS Requirements is Dassault's in house application to create Requirements and track their lifecycle for different Software Products. At this moment, a total of 155 in house Dassault applications are using IS Requirements.

- Single handedly developed more than 30 new features for the enhancement of the application.

- Migrated data of 1300 pre-existing Requirements from other applications to IS Requirements.
- Single handedly worked as L3 support (backend) for the application and solved numerous bugs.
- Proposed and implemented multiple enhancements in design to improve code maintainability and performance.

Tata Consultancy Services

Assistant System Engineer

November 2016 - November 2018 (2 years 1 month)

Pune Area, India

- Successfully developed an entire module as a part of the project using Spring Batch. Implemented various strategies of Spring Batch to ensure robust performance of the developed module.
- Written test cases to ensure the code coverage never falls below 80%.
- Actively used SonarQube to spot vulnerabilities and code smells in each iteration and removed them, which resulted in 70% increase in code quality.
- Reviewed the developed code constantly and then implemented different approaches to improve the performance and maintainability.

Education

Siliguri Institute of Technology

Bachelor's Degree, Electrical Engineering · (2012 - 2016)
